## CHUI OUT-DOOR ADVENTURE - 14 DAYS

This document aims to provide the potential Safari Travellers with valuable and accurate information on Tanzania Safari. We have compiled this information over years of experience as well as from feedback from previous Clients of DONAK Safaris.

### TRIP DETAILS

Type	- Trek + Safari tours
Code	- DS103TS
Duration	- 14 Days / 13 Nights
Start	- Arusha
Finish	- Arusha

### TRIP ITINERARY

#### DAY1: ARRIVAL KILIMANJARO INTERNATIONAL AIRPORT – ARUSHA CITY

Arrive at Kilimanjaro International Airport, meet and greet with our representative then transfer to Arusha for Dinner and Overnight at Planet Lodge on half board basis.

#### DAY2: ARUSHA TO MACHAME GATE (1,634 M/5,363 FT.) TO MACHAME CAMP (2,834 M/9300 FT.)

Hiking time: 7.5 hrs.

Elevation Change: +1,200 m/+3,937 ft.

Estimated distance: 10km/6.21 miles

Final elevation: 3,100-m/10,170 ft.

Your day starts early with a briefing, followed by breakfast and about 1 hour 45 minutes' drive from Arusha to Machame Gate. The guides and porters prepare and pack the supplies and your equipment in the village. You will receive a lunch pack and after registering at the gate office, you start your ascent and enter the rain forest almost immediately. Dinner and overnight at the Camp.

# TRIP HANDBOOK

---

## **DAY3: MACHAME CAMP (2,834 M/9,300 FT.) TO SHIRA CAMP (3,749 M/12,300 FT.)**

Hike time: 7 hrs.

Elevation change: +800 m/+3,000 ft.

Estimated distance: 6km/3.75 miles

Final elevation: 3,749-m/12,300 ft.

You rise early at Machame camp and after breakfast you climb an hour or so to the top of the forest and then for 2 hours at a gentler gradient through the moorland zone. After a short lunch and rest, you continue up a rocky ridge onto the Shira plateau. By now you will be able to see in an easterly direction, the Western Breach with its stunning glaciers.

You are now due west of Kibo and after a short hike you will reach the Shira campsite at 3840m. The porters will boil drinking and washing water, before serving dinner. The night at this exposed camp will even be colder than the previous night, with temperature dropping to well below freezing.

## **DAY4: SHIRA CAMP (3,749 M/12,300 FT.) TO LAVA TOWER (4630 M) TO BARRANCO CAMP (3,901 M/12,800 FT.)**

Hike time: 7 hrs.

Elevation change: +800 m/+3,000 ft.

Estimated distance: 6km/3.75 miles

Final elevation: 3,800-m/12,467 ft.

The route now turns east into a semi desert and rocky landscape surrounding Lava Tower, where you reach an altitude of 4630m after about a 5 hours walk. Lunch is served in a designated area before ascending the rocky scree path to lava Tower (4630m). Definitely, the toughest day so far. It is normally around this point, where for the first time, some climbers will start to feel symptoms of breathlessness, irritability and headaches. After lunch you descent again by almost 680m to the Barranco camping area and after reaching the high altitude of 4600m at Lava Tower, the true acclimatization benefit of this day becomes clear.

# TRIP HANDBOOK

---

This descent to Barranco camp takes about 2 hrs. and offers great opportunities to take some beautiful photographs of the Western Breach and Breach wall. The camp is situated in a valley below the Breach and Great Barranco wall, which should provide you with a memorable sunset while you wait for the preparation of your dinner.

## **DAY5: BARRANCO CAMP (3,900 M/12,800 FT.) TO BARAFU CAMP (4,600 M/15,091 FT.)**

Hike time: 7 hrs.

Elevation change: +700 m/+2,296 ft.

Estimated distance: 8km/5 miles

Final elevation: 4,600-m/15,091 ft.

After spending a night at the Great Barranco Wall (a very imposing sight at first), you make your way up this awesome looking obstacle, which in the end normally turns out easier than what you anticipated. Topping out just below the Heim Glacier, you now appreciate just how beautiful Kilimanjaro really is. The route then heads down through the Karanga Valley over intervening ridges and valleys, and then joins up with the Mweka route. This is the preferred route down from the summit, so remember it. Turn left up the ridge and after another hour or so, you reach Barafu Hut.

The last water stop on the route is the Karanga Valley, as there is no water at Barafu camp. Barafu is the Swahili word for "ice" and it is a bleak and inhospitable camping area to spend the night. Totally exposed to the ever-present gales the tents are pitched on a narrow, stony, and dangerous ridge. Make sure that you familiarize yourself with the terrain before dark to avoid any accidents. The summit is now a further 1345m up and you will make the final ascent the same night.

Prepare your equipment, ski stick and thermal clothing for your summit attempt. This should include the replacement of your headlamp and camera batteries and make sure you have a spare set available as well. To prevent freezing it will be wise to carry your water in a thermal flask. Go to bed at round about 19h00 and try to get some precious rest and sleep.

# TRIP HANDBOOK

---

## **DAY6: SUMMIT ATTEMPT, BARAFU CAMP (4,600 M/15,091 FT.) TO UHURU PEAK (5,895 M/19,343 FT.) TO MWEKA CAMP (3,100 M/10,170 FT.)**

Summit time: 7 hrs.

Elevation change: +1,300 m/+4,265 ft.

Estimated distance: 5km/3.3 miles

Final elevation: 5,895-m/19,343 ft.

Descent time: 5 hrs.

Elevation change: -2,800 m/-9,186 ft.

Estimated distance: 12km/7.5 miles

Final elevation: 3,100-m/10,170 ft.

You will rise around 23h30, and after some tea and biscuits you shuffle off into the night. You will head in a northwesterly direction and ascend through heavy scree towards Stella Point on the crater rim. This 6-hour walk to Stella point is for many climbers, mentally and physically the most challenging on the route. At Stella Point (5685m) you will stop for a short rest and will be rewarded with the most magnificent sunrise you are ever likely to see (weather permitting). From Stella Point you will normally encounter snow all the way on your 2-hour ascent to Uhuru Peak. The time you will spend on the summit will depend on the weather conditions. Do not stop here for too long, as it will be extremely difficult to start again due to cold and fatigue.

Enjoy your accomplishment and a day to remember for the rest of your life. The walk back to Barafu from the summit, takes about 3 hours. Here you will have a well earned but short rest and collect the rest of your gear, before heading down to Mweka hut (3100m). The route is not difficult and will take you down the rock and scree path into the moorland and eventually into the forest. The camp is situated in the upper forest and mist or rain can be expected in the late afternoon. Dinner and washing water will be prepared.

## **DAY7: MWEKA CAMP (3,100 M/10,170 FT.) TO MWEKA GATE (1,828 M/6,000 FT.) – ARUSHA**

Hike time: 4 hrs.

Elevation change: -1,250 m/- 4,101 ft.

Estimated distance: 10 km/6.21 miles

# TRIP HANDBOOK

---

Final elevation: 1,828-m/6,000 ft.

After an early and well-deserved breakfast, it is a short 3-hour and scenic hike back to the Park gate. At Mweka gate you sign your name and details in a register. This is also where successful climbers receive their summit certificates. Those climbers who reached Stella Point (5685m) are issued with green certificates and those who reached Uhuru Peak (5895m) receive gold certificates. Donak Safaris Vehicles will be waiting at Mweka Gate to take you back to Arusha in our affiliated Hotels.

## **DAY8: ARUSHA – TARANGIRE NATIONAL PARK**

After breakfast, depart to Tarangire National Park for Game Viewing and Photographing with the Picnic Lunch. Tarangire is considered to be home of elephants and one of the park with highest concentration of elephants with baobab trees. Dinner and Overnight at Maramboi Tented Camp on full board basis.

## **DAY9: TARANGIRE – NGORONGORO CRATER**

Breakfast at the Camp, drive to Ngorongoro Conservation Area for Full-day game viewing and photographing in the Crater with the packed Lunch. Dinner and Overnight at Ngorongoro Farmhouse on full board basis.

## **DAY10: NGORONGORO – SERENGETI NATIONAL PARK**

After breakfast, depart to Serengeti National Park with packed lunch, en-route Game Viewing and photographing with the Picnic Lunch. On your way to Serengeti shall have a short stop at Maasai boma in Ngorongoro area and Olduvai Gorge – the cradle of mankind? Dinner and Overnight at Kati Kati Tented Camp on full board basis.

## **DAY11: SERENGETI NATIONAL PARK**

After breakfast, departs for Full-day Game viewing and photographing in the Serengeti with the picnic lunch. Dinner and Overnight at Kati Kati Tented Camp on full board basis.

## **DAY12: SERENGETI NATIONAL PARK – ZANZIBAR**

After breakfast transfers to Seronera Airstrip – SEU and connect the flight to Zanzibar. Meet and Greet

# TRIP HANDBOOK

---

with our Representative. Transfer to Kholle House in stone town, check inn and remain at own at leisure.

## **DAY13: STONE TOWN – DOLPHINS AND JOZANI FOREST**

After breakfast, road drive to the swim and snorkeling with Dolphins shall have a very delicious lunch on the way back shall stop over at Jozani Friendly Monkeys forest to watch out and shake hands with the rare world species of Red-colobus monkeys before proceed back to your white sands beach for leisure before overnight at Ras Nungwi Beach Resort on half board basis.

## **DAY14: DEPARTURE, ARUSHA – KILIMANJARO AIRPORT**

After a very delicious breakfast, departs for short trip to Stone town for buying some African arts, souvenir and so on. Then later shall have a road transfer to the airport as per your flight schedule.

## **Trip Includes**

### **MEALS**

14 Breakfasts, 14 Lunches & 14 Dinners

### **ACCOMMODATION**

Hotel (1 night) & Camp (11 nights)

### **ACTIVITIES**

All Activities

### **GUIDE**

Services of a Professional Guide

### **TRANSPORT**

4WD Luxury Safari Vehicle & All transfers to and from Airport

### **FEE**

Parks & Museum Entry Fees

# TRIP HANDBOOK

---

## Trip Exclusions

### FLIGHTS

International Flights

### INSURANCE

Travel and personal accident insurance

### DRINKS

Expenditure on alcoholic drinks, souvenirs and other personal items

### TRAVEL DOCS

Visa, Passport, Vaccinations & Medicines

### TIPS

Tips and Gratuities

### Extra

Expenditure on alcoholic drinks, souvenirs and other personal items

## BEFORE TRIP START

### Before the climb

Be properly equipped. our final checklist and mark it off, to ensure that you are. Click on Final Checklist to get to this very important step in your preparation.

### Be physically prepared

It is important that your body is adequately prepared for the physical challenges of Mount Kilimanjaro. You may opt for the Medical check-up before taking up this challenge.

### Mental preparation

You will possibly summit Kilimanjaro successfully. This should be topmost in your mind when preparing for the summit attempt. You should always remain in a positive state of mind, but not overly arrogant. Try to anticipate various different scenarios, which you may possibly encounter on the mountain

and try to work out the most suitable course of action, mentally by yourself or even as a group. Remember if you are properly equipped, you have taken everything as indicated on the final checklist, you are physically prepared and have all the knowledge gained from this DONAK's guide – you will be mentally confident for the physical part of Kilimanjaro.

## **Adequate travel insurance**

Make sure that you have adequate travel and medical insurance, which will also provide you with cover for the climb up Kilimanjaro.

## **On The Mountain**

Go slowly – “Pole Pole” as they say in Swahili! This is also very important during your first days of climbing. Even if you feel well, slow down and enjoy the scenery. The biggest cause of altitude sickness is ascending too high too fast! The slower you hike to more time you give your body to acclimatize.

## **Drink enough water**

Make sure that you drink at least 3 – 4 litres of liquid a day – preferably water. For your first day it is recommended that you take along fresh water, which may be purchased at the Hotel in Moshi before your climb. Running water on the Mountain is safe to drink from day-2 onwards, but care should still be taken. If you are not used to fresh water in nature, prevent any inconvenience by using water purification tablets. REMEMBER! A functioning “body water balance” is one of the keys to a successful climb!

## **Walk high – sleep low**

If possible and especially on your acclimatisation day “walk high – sleep low” Try to do a short evening stroll to a higher altitude and then descend to sleep at the camp at a lower altitude. This is essential on your acclimatisation day.

## **Packing**

Our DONAK Safaris' mountain Guides advises you to take enough clothing, especially socks to last for this period. Due to frequent rainfall as well as numerous streams on the Routes, it is advisable to pack

items individually in your Bag. These individually packed items should be wrapped in plastic Bags to prevent them from getting wet in case of rain or of being accidentally dropped in a stream.

## **New batteries**

Replace your head lamp and camera batteries with new ones on your summit night

## **Malaria**

Malaria occurs below 1800 meters and you should use the recommended prophylactics. Please consult your Doctor about these. Currently, there are various preventative medication products available which will be effective against the Malaria strains currently found in Tanzania. Women using oral contraceptives should consult their Physicians before using prophylactics.

## **Camera**

Taking pictures with a fully automatic Camera at the summit of Kilimanjaro is possible, and most people do this. The secret is to always have a new Battery in your camera when going into cold areas at high altitude. A mechanical camera works just as well, provided you have the knowledge to operate it successfully. Cameras exposed to cold do not cease functioning, but remember that if you keep your Camera inside your jacket and the lens becomes warm, chances are that it will form condensation when suddenly exposed to extreme cold. This condensation will freeze under conditions at the summit. Therefore, keep your camera dry at all times. The Most Important Tip of All – ENJOY THIS ONCE IN A LIFE TIME EXPERIENCE!!!

## **What to bring-Packaging List (Kilimanjaro)**

### **Baggage and Sleeping kit for climbing Kilimanjaro**

- Large Rucksack or Hold all, 70-90 liters capacity (for kit carried by porter)
- Day sack, 25-35 liters (for personal use on mountain; ready-access items)
- Sleeping Bag (minus 10 degrees Centigrade rating or colder).
- Waterproof rucksack liner or heavy duty plastic sack

- › Elasticated waterproof rucksack cover

**NB: sleeping mattresses are not required as we provide these for you.**

## Clothing for climbing Kilimanjaro

- › Sweat-wicking T-shirts / vests
- › Fleece
- › Insulated down jacket or similar.
- › Down mittens or similar.
- › Thermal long-johns for summit night.
- › Lightweight walking trousers (avoid jeans or heavy cotton as they chafe and dry slowly)
- › Underwear (briefs are usually better than boxer shorts which gather and chafe)
- › Very good quality hiking socks and thin liner socks. (We advise that socks should be at least a size too small otherwise they stretch and bunch causing blisters)

## Breathable lightweight waterproofs (jacket and trousers).

- › Waterproof walking boots, sturdy and worn-in. A Gore-Tex membrane or similar is advised. While Alpine or C3 boots are not required for Kilimanjaro it is important that your boots have good ankle and arch support and good deep tread patterns.
- › Calf gaiters
- › Balaclava
- › Gore-Tex Mountain Cap or Woolen Hat
- › Wide brimmed sun hat to protect face, ears and neck

## Hygiene related gear for use on Kilimanjaro

- › Toothbrush, toothpaste & deodorant
- › Flat packed Wet Ones, travel wipes, or similar for personal hygiene on the mountain.
- › Kleenex tissues in plastic travel pouches or toilet paper
- › Hairbrush / comb
- › Sanitary products
- › Lip salve with UV protection
- › Vaseline, to prevent chafing skin and heel friction blisters

## Health related items for Kilimanjaro

- Malaria Tablets (if you choose to take these. Most will seek advice from their GP. Note that some anti-malarial courses need to commence several weeks before departure)
- Factor 30+ sun cream
- Sun barrier cream white / blue for nose and ears

## Documents needed when travelling to Kilimanjaro

- Passport (with additional 6 months' validity after proposed expedition return date)
- Tanzanian Entry Visa. (If flying to Nairobi and taking the bus to Arusha Kenyan visas can be bought on arrival at Nairobi airport.)
- Air Travel Documents
- Cash in US dollars in denominations of \$10 and \$20 and \$1 (tipping allowance and local purchases, taxis, meals, etc.)
- Credit Card (recommended for eventualities only)
- Travel Insurance Documents
- Vaccination Certificates (Yellow Fever, if visiting a 'risk zone' prior to entering Tanzania)

**Traveller's Cheques are not recommended as they are subject to very poor conversion rates in Arusha.**

## Other things recommended to be carried when climbing Kilimanjaro

- Camera and film or Digital Camera and spare memory cards
- Sunglasses with UV-filter lenses
- High energy snacks (Cereal bars, dried fruit and nuts)
- Spare Contact Lenses and fluid, if worn
- Watch
- Head torch with spare batteries and bulb for summit night & tent admin
- Water bottles & Camelback (3 liters carrying capacity)

Optional but recommended: Nuun hydration aids (portable electrolyte replacement tablets)

- Water Purification Tablets / Iodine drops

# TRIP HANDBOOK

- Ear Plugs and blindfold (to aid sleep on afternoon before summit night)
- Plastic bags (for dirty washing, wrappings, etc.)
- Telescopic walking poles (optional)
- Mobile phone. There is signal reception on most parts of the mountain. It is a good idea to unlock your phone before you come out so that a local sim card can be used.

Optional but recommended: *a good, strong, thermally efficient blizzard survival bag. We strongly recommend that all climbers possess one of these, especially when training alone or in small groups while preparing for Kilimanjaro. On Kilimanjaro, perhaps 10 - 15% of climbers complain to their guides of being cold in their sleeping bags, despite using a bag that is rated for minus 20 degrees C or lower. This is because the body generates less heat when there is relatively little oxygen available. Having one of these bags will reflect much of that precious heat back to where it's needed.*

## Personal Small First Aid Kit to be carried by each climber on Kilimanjaro

- Pain Killers (Ibuprofen)
- Diamox (Acetazolamide) if you choose to use this.
- Paracetamol
- Zinc oxide tape and small scissors.
- Compeed Blister Pads
- Loperamide Diarrhoea Tablets
- Any medication you normally use
- Dioralyte sachets or similar rehydration packs.

Note that your guide will carry a more comprehensive medical kit containing additional Acetazolamide, Ibuprofen, Anti-inflammatory gel, bandages, Loperamide, Amoxicillin, Oral Dexamethasone, and several other items.

## SAFARI - BEFORE TRIP START

### Climate

Tanzania is a land without winter. The hilly Country in the North has a pleasant climate from June -

# TRIP HANDBOOK

---

September. The coast is generally hot and humid with an average temperature of 30 degrees Celsius. The main rainy season is from March to May, the hottest being from October - February. Temperatures at the Summit of Kilimanjaro, range from -20 to -25C.

## Language

Although Tanzania has many local dialects, Swahili is the official language. English is Tanzania's second official language and its commercial language. Most people you will come in contact with will be quite fluent in English. You may find it useful to buy a Swahili-English Phrase book on arrival.

## Passport & Visa

All visitors to Tanzania must have Passports valid for travel to Tanzania as well as Visas to enter Tanzania obtainable from our Diplomatic representatives abroad.

Currently, visas are available for most nationalities at TZ Airports & Border posts (if you intend purchasing a Visa on arrival, please check with the Tanzanian diplomatic representatives abroad or check with us prior, to make sure this option is available).

## Health

Tanzania has re-introduced health desks at all ports of entry at Mainland Tanzania & Zanzibar. Please ensure you bring yellow fever Vaccination certificates with you to show on entry, if requested.

Anti-malarial medication is recommended to be taken a few days prior to arrival, during your stay and a short period after returning. We would strongly recommend that you consult your Doctor.

## Electricity & Appliances

Most Hotels/Lodges in Cities in Tanzania run on electricity with many having standby Generators. However please note that many Tented Camps and Lodges when on safari in Tanzania run on Generators which are turned off after dinner and on again just before dawn. We recommend that you carry a Flashlight and extra Batteries.

## Money Matters

The currency in Tanzania is the Tanzania Shilling. The US Dollar, however, is most widely used. Foreign

# TRIP HANDBOOK

---

currency can be exchanged for local currency at the Banks and Bureau De Changes. Changing money on the streets is prohibited and dangerous.

**CREDIT CARDS:** Although some Hotels/Curio shops accept Credit Cards. Credit Cards are not so widely used. In places that they can be used, surcharges of between 5-15% or more should be expected.

**ATM's:** Many major cities in Tanzania have ATM's (that accept Master card and Visa). A pin code is required, and the cash withdrawal limit is about US\$300 per day which you receive in local Tanzanian Shillings.

## **Dress**

Safari attire is casual and comfortable. The emphasis at most Lodges & Camps is on informal but comfortable wear. However at some Lodges gentlemen are required to wear long trousers for the evening meals.

Topless sunbathing is not permitted and ladies should wear appropriate clothing in public places. A jacket will be found handy especially in the evenings & early mornings.

## **Food**

In Tanzania, food is of a very high standard. Avoid drinking Water from the tap. Bottled water may be purchased locally before embarking on Safari. It is also available at the game Lodges.

## **Security**

As in all Countries, security is basically a matter of common sense. Crime is not rare in big cities in Tanzania, though, precautions must be taken. We recommend you avoid walking in the streets after dark; avoid leaving valuables or large amounts of money in your Hotel room or Vehicle or carrying it with you.

## **Tipping**

Tipping is customary on a Tanzanian Safari/Trek. Most of our Safaris & Treks at DONAK Safaris are private, i.e. Small Groups, Combo safaris, Day Tours or Trekking.

# TRIP HANDBOOK

---

\*Below is a recommended guideline for tipping

**Safari Driver/Guide:** US\$10 to \$15 per vehicle per day

**Safari Cook:** US\$10 to \$15 per vehicle per day

**Mountain Guide:** US\$10 per day per guide from group

**Mountain Cook:** US\$10-\$12 per day per cook from group

**Assistant Mt. Guide:** US\$8 per day per asst guide from group

**Porters on Mountain:** US\$15-\$20 per porter for duration from group

**Porters at Lodge:** US\$1-2

## Gratuity Box

These are found at most Lodges. We recommend these as your tip is then distributed fairly amongst all the staff. DONAK Safaris recommends that tipping is usually done at the end of the trip and given directly to the person it is meant for.

## What to bring-Packaging List (Safari)

### Clothing

Khaki and green colored clothes are much recommended on safari. Bright colors should be avoided because they tend to scare animals; camouflage clothes are illegal because they are worn by local soldiers.

- Long sleeved lightweight shirt for protection from the sun
- Sweater / jacket and pants for cold temperatures experienced at night
- Hat
- Sandals to put on during safari
- One nice pair of shoes
- Short pants
- Sunglasses
- Bathing suit (those staying in lodge/hotel with a swimming pool & would want to swim)
- Socks

# TRIP HANDBOOK

---

- › Belt

We advise to bring enough clothing for the entire safari as you may not have them washed (though most lodges do offer laundry service)

## Toiletries & Medicine

- › Malaria prophylaxis
- › Prescription drugs (also bring the generic names for these drugs, good idea to pack 2 separate lots)
- › Motion sickness pills
- › Deodorant
- › Toothpaste / Toothbrush
- › Dental Floss
- › Hair Brush / Comb
- › Electric / Hand Razor
- › Emery Boards
- › Tweezers
- › Hand Lotion
- › Fem. Hygiene Supplies
- › Insect repellent (containing DEET for mosquito's)
- › Sun Screen (SPF 15 or higher)
- › Lip Balm
- › Shampoo/Conditioner

## Documents

- › Passports and Entry Visa
- › Cash
- › Health cards (vaccination certificate)
- › Airline tickets
- › Credit Cards (VISA, MasterCard and/or American Express)
- › Photo copy of passport/visas/Insurance papers

# TRIP HANDBOOK

---

## Other Items

- › Camera (Bring camera with enough memory)
- › Extra camera batteries
- › Flash bright
- › Binoculars
- › Locks for baggage
- › Video camera
- › Wildlife guides
- › Small backpack for car
- › Money belt
- › Snacks

## DONAK SAFARIS LTD
